5D Shek Kwan Yui

An Unforgettable Day

There are many good moments in my school life. My first day at school was unforgettable. I woke up early that day. I remember I was very excited. My mother accompanied me to school on the first day.

We arrived at school at seven forty in the morning. Other parents accompanied their children as well. All of them waited outside the school until it was time for us to go to our classrooms. All the children were separated into five classes. I was in Class 1D and my class teacher was Miss Tsui. After I sat down on my chair, I heard a girl cry as the parents were not allowed to go into the classroom. I did not cry. Soon, some of my classmates came to me and asked for my name. We played happily at recess.

During lunch break, I was very happy to eat with my mother. After lunch, my teacher told us stories and played games with us. When the bell rang at twelve fifteen, I felt sad to leave my new friends. But I knew I could come back the next day.

From that day on, I did not feel frightened at school. I love my school.
