My Happy School Life

I have a very happy school life in my school. Whenever I go to school, I feel happy to see my classmates because they are kind and friendly.

In Chinese lessons, Miss Lam teaches us very well. I am so happy to have Miss Lam as my Chinese teacher and my class teacher. She gave us each a lovely notebook for writing **down notes** in Chinese lessons. Now, my writing is better than before because Miss Lam teaches well. I love her very much.

English lessons are interesting. Miss Chan has a good sense of **humour but** when the boys are naughty, she will be strict and give them a moral lesson. I think Miss Chan is very kind. For other lessons, I feel happy and warm. I learn many things and meet many teachers.

At recess, I sometimes go to the library. There, I can meet some librarians. I always play with friends at recess too.

For extracurricular activities, I play volleyball and koto. I love these two activities very much and I enjoy doing them.

I love my school life very much. I believe I **will** remember my happy school life forever.
