An Unforgettable Day

I enjoy my school life very much. There are so many unforgettable days. The most unforgettable day was the Halloween party on 31st October. It was such a fun day **forme**. Everyone was so excited with different kinds of Halloween costumes. Students dressed up as princesses, ghosts and angels. Among them, some were very beautiful while some were very scary.

The funniest thing was **taking** care of the kindergarten kids, to take part in the Halloween games. We also helped them draw some pictures on their hands and faces. They were very cute. Although I had some difficulties, I did my best to help them. We shared some candy with them too. It was so yummy. Before the party finished, we gave candy to every child and said "Happy Halloween" to one another. I had a good time taking part in this party. It was such an unforgettable day.
